## ***Initial Assembly***

1. Assemble two squares using 4 unswedged pipes and 4 corner fittings for each.

2. Insert swedged pipes into each corner of one square and the remaining unswedged pipes into the four corners of the other square.

3. Turn the two cubes onto their sides and slide them together.

# ***Big Splash Indoor Booth***

## ***Initial Assembly***

**4. Tip frame into its up-right position. Place the booth to the immediate right of the Big Splash.**

**5. Attach the vinyl booth using the ball bungees.**

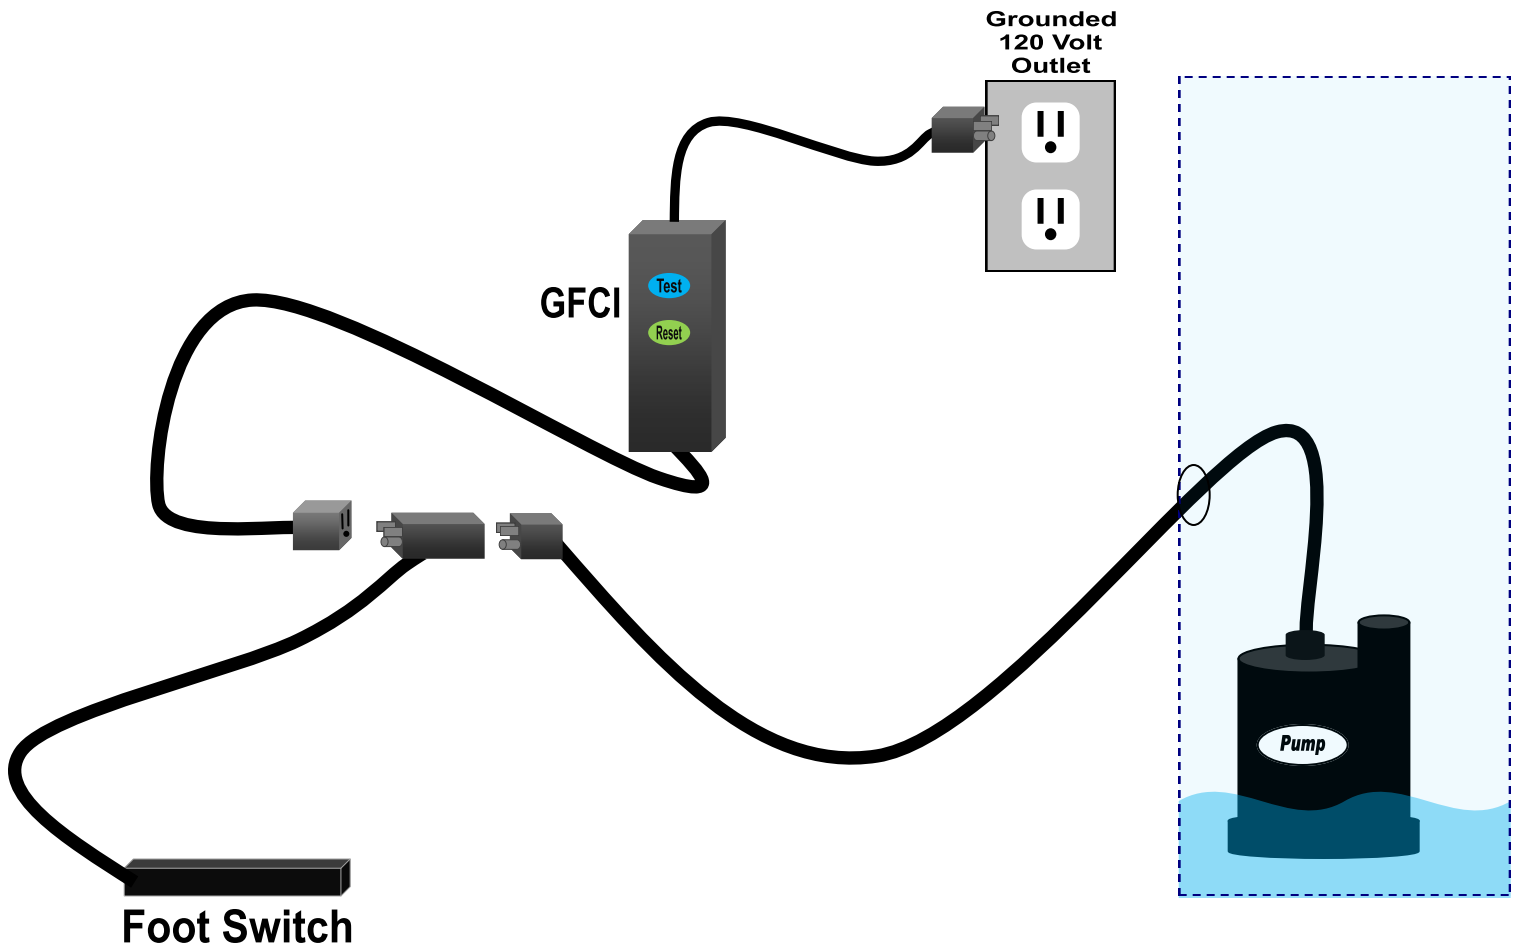

**6. Put the pump in the back corner of the booth and run the cord through the hole provided.**

**7. Put at least 5 gallons of water into the booth. (Water level must be at least 1" deep for the pump to work.)**

# ***Big Splash Indoor Booth***

## ***Initial Assembly***

8. Plug GFCI into a grounded 120-volt outlet. Plug the footswitch into the GFCI and then plug the pump into the footswitch.

# ***Big Splash Indoor Booth***

## ***Initial Assembly***

8. Attach the tubing to the pump using the hose clamp.
9. Put a chair (with rubber tips on the legs) inside the booth, positioning it so that the water, when dumped from bucket will land on it.

### **Instructions for Care**

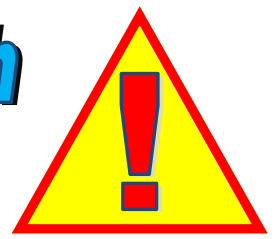

1. Do not store unit damp.
2. Do not store vinyl in the same case with pipes or fittings.
3. Periodically check electrical wire for wear.

## **Safety Rules**

**Be sure to review ALL safety rules with operator prior to use.**

### **General Safety Instructions**

- 1. NEVER USE THE GAME IN STRONG WINDS OR LIGHTENING!!**
- 2. Use caution when setting up or taking down the game. Once the bolts are loosened the sections of tubing can come apart and fall down causing injury.**
- 3. Keep all electric items (except for the pump) away from the water.**
- 4. Secure power cord to avoid a trip-hazard.**

### **Pump Safety Instructions**

- 1. Read instructions included with the pump before use.**
- 2. Connect only to properly grounded outlet.**
- 3. Do not connect to any voltage other than that shown on the pump.**
- 4. Be sure to use with the GFCI (provided) .**
- 5. Do not let the pump run dry. (Water level needs to be at least 1".)**
- 6. Never lift the pump by its cord.**
- 7. Please consult the instruction included with pump for complete safety rules.**
