Assembly Instructions

- 1.) Assemble frame per image below.
- 2.) Attach walls using the velcro straps. (Wall A is the front. Wall B is on the right. Wall C is the back. Wall D is on the left.)

Puzzle Reset

3.) Hang the netting to create a “hammock.” Place the skull, letter, and a few bones inside the netting. Hang a lantern in each corner

4.) Place monitor on the rear wall, and run the cord to an outlet (using an extension cord if necessary). Tape down any loose cords. Use the remote to play the video. (Restart video as each new group enters.)

5.) Spread the remaining bones, the wooden planks, and the candles randomly around the perimeter.

6.) Place the straight key into the bottle containing the small keys, and engage the bottle lock.

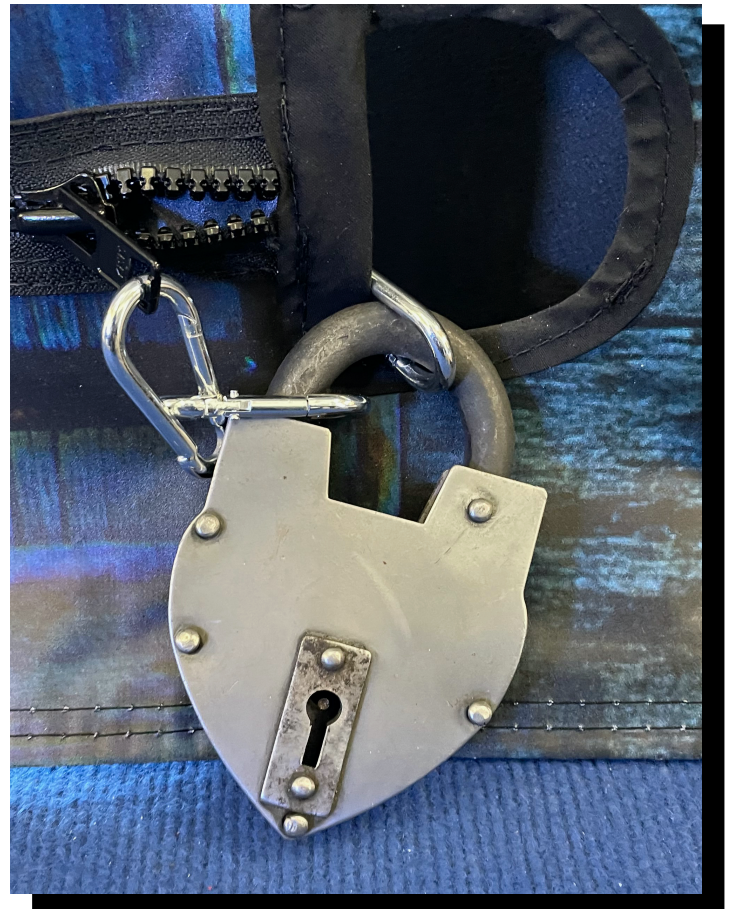

7.) Place one of the chest keys into the blue and white puzzle pod, and place the other key inside the black puzzle pod.

9.) Place the final key—the one to the door padlock—inside the wooden chest with the heart and put all three locks on the lockout hasp.

9.) Attach the padlock to the zipper pulls, making sure it is on the inside.

Safety Instructions

1. Use only under adult supervision
2. Keep spectators clear from the sides and back of unit.
3. NEVER USE THE GAME IN STRONG WINDS OR LIGHTNING!!
4. Use caution when setting up or taking down the game. The sections of tubing can come apart and fall down causing injury.

Game Master Sheet

This sheet provides high-level guidance for the Game Master to help oversee the game play for this pop-up escape room.

- ~ Upon entering the escape room, players will need to arrange the wooden planks by aligning the symbols on different planks. When all of the planks are aligned, the planks spell 398.
- ~ 398 is the number sequence to unlock the lock located on the bottle containing numerous keys.
- ~ After locating the correct key from the contents of the bottle, the key will unlock the first lock on Davy Jones' chest.
- ~ Symbols on the bottles of liquid coupled with the cipher sheet will provide the letter sequence to unlock the blue and white puzzle pod. The letter sequence is HEART.
- ~ After unlocking the blue and white puzzle pod, the contained key will unlock the second lock on Davy Jones' chest.
- ~ The coded riddle in the blue and white puzzle pod will provide the letter sequence to unlock the remaining puzzle pod. The letter sequence is DIE.
- ~ After unlocking the remaining puzzle pod, the contained key will unlock the third (and final) lock on Davy Jones' chest.
- ~ Davy Jones' chest contains his heart and the key to unlock the door to the pop-up escape room.
